

Outer Northern Refugee Health Network Updates (ONRHN)

- Background
- Purpose
- Strategic Plan 2018-2021
- Priorities
- Actions

Mohammad Karimi,
Project Coordinator
ONRHN

Priority 1	Actions
Improve access to and navigation of health and community services for refugees	Market the existing ONRHN service directory to promote available services
	Access and analyse data for refugee service presentations
	Identify and refine existing service maps and health pathways documentation
	Develop strategies for sharing information about available programs and resources with specific newly arrived communities

Priority 2	Actions
Build the capacity of health and community services to effectively assist refugees	Build ONRHN member capacity to support refugees by seeking additional resources
	Prepare for future refugee intakes In partnership with government
	Identify and share key knowledge and resources to build ONRHN capability to work with refugees

Priority 3	Actions
Develop social inclusion approaches that improve refugee community participation and acceptance	Consult with distinct refugee communities to identify key social inclusion and community participation priorities
	Provide advice and input into government policy and strategic directions related to refugees
	Identify and align activities with existing social inclusion strategies and plans for refugees in their local communities

Priority 4	Actions
Strengthen the Network through enhancing its governance, membership and profile	Further enhance accountability measures for the ONRHN
	Clarify and expand ONRHN membership
	Build links with other networks and state wide services
	Document and communicate the value and work of the ONRHN

Thank you
