

Supporting Newly Arrived and Immigrant Women to Access Cancer Screening

PapScreen Victoria and BreastScreen Victoria invites health, government and community employees and managers to a workshop aiming to increase knowledge and awareness of the importance of cancer screening and prevention.

The information and activities in this workshop explores the role of Pap tests, mammograms and bowel cancer screening tests for newly arrived or immigrant women.

This is a free workshop and will include lunch and refreshments.

Workshop details:

Wednesday 11 September 2013
10.00am – 3.30pm
Main Conference Room
Cancer Council Victoria
100 Drummond St, Carlton 3053

Community Grants:

PapScreen Victoria and Breast Screen Victoria will provide small grants to support CALD services to integrate screening messages into their work via health promotion events.

*There will be an additional workshop for small grant applicants to be held on Wednesday October 9th 10.00-1.00pm.
