Primary Care Project Advisory Group Terms of Reference

Purpose

1. To reflect on and discuss the issues related to building the capacity of general practice in refugee health in Victoria
2. To provide strategic and content advice about development, implementation and evaluation of the Network Primary Care Project
3. To support buy-in for the project within the sector and its longer term sustainability

Structure

- Each member of the Primary Care Project Advisory Group will have a unique contribution with knowledge, experience and expertise in refugee primary health/service delivery, general practice or relevant government departments, settlement services
- The group will be time limited, with six meetings to be held between December 2014 and June 2016
- Secretariat support for the meetings and project work will be provided by the Network Sector Development and Policy Advisor – Primary Care

Communication

- Action oriented meeting minutes will be distributed to all members
